Media Coverage

From time to time, the media may cover events or activities at your child's school. It is important that we know your wishes regarding your child's participation (for example, being photographed, videotaped or interviewed). Media coverage would include the use of your child's name and photograph. Some media may also release information on the Internet (i.e., a newspaper digital version).

I hereby authorize Prairie Spirit School Division to include my student in media coverage. (Please indicate Yes or No)

Prairie Spirit School Division Website and School Website

The Prairie Spirit School Division (PSSD) website, www.spiritsd.ca, contains information about our school division as well as web pages for many of our schools. The PSSD encourages schools to use their web sites to communicate with parents and with the public, providing both educational resources and news about the school. The Division website is used to help the community learn more about our schools and our Division. Anyone with the internet is able to access these pages from virtually anywhere in the world.

Student photos are sometimes posted on the division's website or on a school website to showcase particular events or activities. Personal information may be used to recognize the student accomplishments or participation in academic or extra-curricular activities. Identification of students in photos on a website is by first name and first initial of last name only. Photos of large groups or action shots where students cannot be identified may be posted without parental permission.

I hereby authorize Prairie Spirit School Division to include my student on the Prairie Spirit website or the school website. (Please indicate Yes or No)

Network/Internet Acceptable Use Permission

The internet and networked computers are exciting additions of the educational resources that our schools provide to our students. Responsible use of the network/Internet has the potential to expand our students' information horizons and to help them develop lifelong research skills

Access to the network/Internet is a privilege, not a right. Inappropriate use will result in the loss of that privilege. The school will determine what inappropriate use is and will decide logical consequences of misuse.

Guidelines:

- 1) Generally, a student's conduct with the network/Internet is governed by the same expectations which guide his/her behaviour at school.
- 2) All students will be instructed in the acceptable use of the Internet before they may access the Internet. They must complete this Network/Internet Acceptable Use Permission Form before access can be granted.
- 3) Access will only be provided while a student is under the supervision of a teacher or responsible adult.
- 4) Students will use the network/Internet for Educational purposes.
- 5) Students will not create, distribute, download or save any text, sounds, graphics or other material which are obscene, harassing, racist, malicious, fraudulent, libelous or which may affect the integrity of a computer or computer network. The school/access providers are the sole arbiters in determining what materials or activities may fall into these categories.
- 6) Students will respect others by not attempting to read, copy or change files or passwords belonging to other people, either locally or on the Internet unless authorized to do so by those individuals.
- 7) Students will respect copyright laws and rules regarding plagiarism.

Network/Internet access will only be provided to students who have the approval of their parents/guardians. At any point, parents/guardians are free to ask that their child no longer be given access to the Internet.

I, _____ agree to follow all of the guidelines for using the network/Internet as explained to me and I understand how I may use the network/Internet. I understand that if I do not follow the guidelines, consequences as outlined by the school will be imposed.
