ADMINISTRATOR'S MESSAGE

October

We began this school year with some new expectations around technology. A big change for students was initiated by the provincial government regarding the restriction of the use of cell phones in Saskatchewan schools. The expectation is that students in grades K-6 will not have access to their phones at any point during the school day. The only exception to this is their bus trip. Similarly, during instructional time, students in grades 7 and 8 will not have access to their phones. However, they can access their phones before and after school, and during breaks. Students in grades 9-12 are not able to access to their phones during instructional time, but teachers are able to apply for exemptions for specific times and instructional purposes. These students are also able to access their phones before and after school, and during breaks. To this point in the school year, the students have been great about following these provincial expectations. We have only had 8 phones turned into the office for repeat violations, and we haven't had to call any parents in to help us devise alternate plans for repeat offenses.

The other change was our school invitation for parents to supply their children with their own technology. This was always intended to be a strictly optional purchase to allow us more easily keep up with the demand of access to technology in modern education. We currently have approximately 10% of our grade 7-12 students who have brought their own devices, and we are happy to report that no issues have been brought to our attention with concerns. In both cases students have been supported with a newly established Wi-Fi network to connect non-PSSD devices.

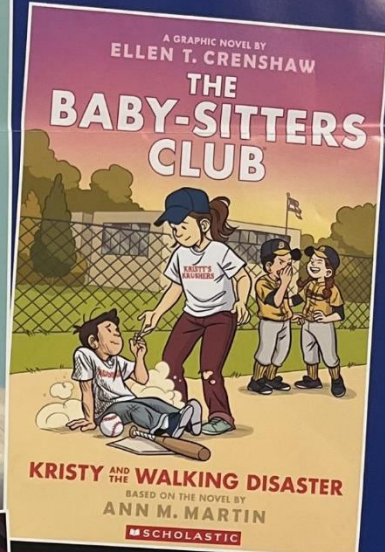

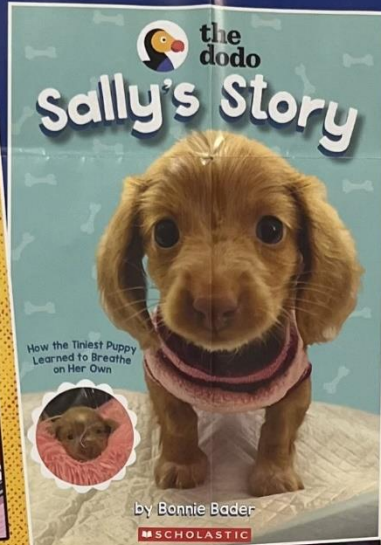

Fresh off the Thanksgiving weekend, we are looking forward to some upcoming activities. The SCC is hosting our Fall Supper next Tuesday, October 22 with 5:00 and 6:30 sittings planned. This is a great community-building event that supports our school literacy efforts with profits going to grade K-6 classroom libraries. On Wednesday and Thursday we are looking forward to parent/student-teacher interviews. Please look at Edsby for further information on how to book times.

We're looking forward to seeing you at the school over the next few weeks. Enjoy what has been forecast to be a warmer than average fall.
